3-11
Revegetation Cost Monitoring
Estimate
Feb. 10, 1988

November 20, 1981

Genwal Coal Co., Inc.
P.O. Box 38
Orangeville, Utah 84537
Attention: Bill Wollen

Dear Bill:

The following estimates for Revegetation Monitoring are rough,
but should give you a decent idea of cost per year in 1981 dollars.

	<u>Activity</u>	<u># persons</u>	<u># days</u>	<u># man hours</u>
1.	Data Collection - Reference Area	2	1.5	27
2.	Data Collection - Revegetated Areas	2	3.5	63
3.	Sample drying and weighing	1	3	27
4.	Data analysis	1	2	18
5.	Report - writing, typing and proof-reading	1	1	<u>9</u>
				144

Average charge per man hour: \$32.00 (32 x 144) = \$4,608.00

6. Mileage 350 miles x \$0.35 = \$122.50

7. Perdiem = \$300.00

Total estimated cost = \$ 5,030.50

Call if you have any questions.

Sincerely,

Thurman Madden
